Your Wants in Bottoms, Shoes, Middles, Clothing, or Tops, Hats, at prices not to be equaled.
Your patronage solicited. **Robinett's Bankrupt Store.**

Notice to Teachers.

The second regular examination of teachers for the year of 1909 will be held at Mountain Grove and Hartsville, June 25 and 26. All teachers who have certificates they want renewed should send them to me before that time. This will be the last examination held by the County Board of Education; the new Supervision law will go into effect on August 15, and all examinations after that date will be conducted by the county Superintendent alone. I shall hold a two days' meeting of teachers and school officers at Hartsville, August 25th and 26th (the two days preceding the August examination) for the purpose of instructing teachers in the new course of study, which will be out before that time, how to organize and conduct their schools under the new system, and many other points of interest. The school law has been revised by the last Legislature and there are more than a hundred changes, all to the benefit of the rural schools. The new law will be printed and ready for distribution by the date of this meeting, and I hope to be able to supply all who want copies. I sincerely trust that all teachers will be at this meeting, as you will gain much valuable information. Do not begin your school until September 6th, and then you will be ready to start right, and keep in line with our new work throughout the year. A new system of reports and graduation will be instituted, which in itself, will prove the efficiency of supervision in your work. If you have promised to begin school earlier than Aug. 25th, ask your school board to let you attend the two days' meeting, and persuade them to attend themselves, as the information gained will be worth much to the district.

Yours for higher education,
R. J. KNIGHT, Co. Com.,
Norwood, Mo.

GROUP stopped in 30 minutes sure with Dr. Shoop's Group Remedy. One test will surely prove. No vomiting, no diarrhea. A safe and pleasing group-remedy.

THE OZARKS.

In answer to the many letters received from Homeseekers, etc., we publish a few facts about the Ozarks.

MANSFIELD.

It is a nice little city located on the main line of the Frisco Railway, Kansas City to Memphis forty-eight miles east of Springfield, Mo. We have 700 people (no negroes, good school and churches. Flour mill, creamery, evaporator, canning factory, etc., and the usual business houses found in a town of this size. It is the distributing point for Hartsville, the county seat of Wright county and Ava the county seat of Douglas county. In fact, the freight, express and mail for 30 miles south and 20 miles north pass through Mansfield, which makes it quite a center, a splendid trading point and market. Good opportunities await the hustling business man.

The Ozark region is, all things being carefully taken into consideration, more desirable to live and farm in than any other part of the United States; if COST doesn't matter, there might be locations more desirable; if health doesn't matter, there might be better places to farm, but if you take EVERYTHING into consideration, the better you become acquainted with conditions the surer you will be that there is no better place to live than here in the Ozarks.

THE ALTITUDE.

The altitude of the Ozark region is the most important thing about it, because it is the cause of the healthfulness, the cause of the almost ideal year 'round climate, and the reason why this country is the ONE GREAT FRUIT COUNTRY of the world. The highest point in the Ozarks is at Cedar Gap, which is 1,675 feet above sea level, but any point above 1,000 feet can be considered "On The Top of the Ozarks," and here there need be no question about the climate or health, for both are as near perfect as can be found within the United States. Our elevation is 1,500 feet.

The water is good. Probably that is another cause of the remarkable good health of the Ozark country here. The possibilities for cattle raising are simply wonderful; we can pasture nearly ten months in the year, and we have practically no winter to freeze off the fat you have so patiently built on, and corn and grass, the crops required, grow here, surely and luxuriantly.

The Denmark of America.

Although the dairy business has as yet, received practically none, or very little, attention in this country creameries and cheese factories are now beginning to spring up almost everywhere, and within a very few years this Ozark Region will be the leading dairy country of the United States, if not of the world. The adaptability of this country to dairying is much greater than of any other part of the United States, as you will readily admit when you consider the favorable seasons, delightful climate. The roughest land grows fine clover, timothy and blue grass.

HOGS.

Hogs have had to raise and take care of themselves, in this country, until within the last few years, when the right kind of immigrants have begun coming into the country. Many a car load of hogs have been shipped, and in remarkably good condition, too, to the markets of St. Louis and Kansas city, no care or attention from the owners, on the most-acorns, nuts, etc.,—that grows wild in the woods. This is a fact, but I would not advise you to come here, expecting to raise hogs that way, for the conditions that made it possible a few years ago, are changing fast with the new immigration this country is getting, still it is scarcely necessary to say that this is a good country to raise hogs in. Besides the natural advantages of the climate and country, and the natural good health of everything that lives here, we can raise, on 15 per acre land, as much and as good corn as can be raised on the 475 per acre land of other states.

(Concluded next week)

W. C. J. U.

We are very glad to report the Song Contest at the C. P. church Thursday evening of last week very good indeed.

The Solo rendered by Rev. Davis, of Kansas City, exceptionally good.

L. T. L. and the sacred selections by the choir of young ladies was much enjoyed.

The recitations by Miss Virgie Teftteller and the reading by Miss Lola Tripp were well given and taught a pointed lesson in temperance.

Of course much interest was evinced in the Song Contest.

The Ladies quartette did very well indeed, considering it was their first attempt in such a role and that, too, with only two days' practice, while the Male were veterans in experience, and were awarded the prize of a silver dollar, which they very kindly and generously returned to the treasury of the W. C. T. U. The regular semi-monthly meeting of the organization was held on Tuesday of this week at the home of Mrs. James Coday.

Let us have a full attendance on Tuesday, June 15th, at the home of Mrs. Peters when final arrangements will be made regarding attendance at the District Convention to be held at Willow Springs, June 24-25.
Press Supt.

They Work While You Sleep.

While your mind and body rest Cascarets Candy Cathartic repair your digestion, your liver, your bowels, put them in perfect order. Genuine tablets stamped C. C. C. Never sold in bulk. All druggists, etc.
